

Chapter V, Section H, Page 34 is amended to read as follows:

Florence County currently owns and operates one (1) Construction, Demolition, and Land-Clearing Debris (C&D) Landfill. Florence County will provide for the capacity requirements through the expansion or replacement of the current Construction, Demolition, and Land-Clearing Debris (C&D) Landfill and by the current contract and possible future contracts with Pee Dee Environmental ISW Landfill. Lake City will continue to provide disposal capacity for its citizens by replacing the existing landfill when all capacity has been exhausted. No other replacements, other expansions, or new C&D Landfills will be necessary.
